#### SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 122 of this title.

### § 122. Payment to States for bond retirement

Any State that shall use the proceeds of bonds issued by the State, county, city, or other political subdivision of the State for the construction of one or more projects on the Federal-aid primary or Interstate System, or extensions of any of the Federal-aid highway systems in urban areas, or for substitute highway projects approved under section 103(e)(4) of this title, may claim payment of any portion of the sums apportioned to it for expenditure on such system or on highway projects approved under section 103(e)(4) of this title to aid in the retirement of the principal of such bonds the proceeds of which were used for projects on the Federal-aid primary system or extensions of any of the Federal-aid highway systems in urban areas or for substitute highway projects approved under section 103(e)(4) of this title and the retirement of the principal and interest of such bonds the proceeds of which were used for projects on the Interstate System at their maturities, to the extent that the proceeds of such bonds have been actually expended in the construction of one or more of such projects. Such claim for payment may be made only when all of the provisions of this title have been complied with to the same extent and with the same effect as though payment were to be made to the State under section 121 of this title, instead of this section, and the Federal share payable shall not exceed the pro rata basis of payment authorized in section 120 of this title. This section shall not be construed as a commitment or obligation on the part of the United States to provide for the payment of the principal or interest of any such bonds. The payment of interest on such bonds and incidental costs in connection with the sale of such bonds shall not be included in the estimated cost of completing the Interstate System.

L. 95-599 inserted provisions relating to the retirement of bonds the proceeds of which were used for program projects, provisions that section was not to be construed as a commitment on the part of the United States to pay the principal of any such bonds, and provisions prohibiting inclusion of interest and incidental costs of bonds in estimated cost of completion.

#### PAYMENT OF INTEREST ON BONDS ISSUED PRIOR TO AND AFTER NOVEMBER 6, 1978

Section 115(c) of Pub. L. 95-599 provided that: “No interest shall be paid under authority of section 122 of title 23, United States Code, on any bonds issued prior to the date of enactment of this Act [Nov. 6, 1978], unless such bonds were issued for projects which were under construction on January 1, 1978. Interest on bonds issued in any fiscal year by a State after the date of enactment of this Act may be paid under authority of section 122 of title 23, United States Code, only if (1) such State was eligible to obligate funds of another State under subsection (a) of this section during such fiscal year and (2) the Secretary of Transportation certifies that such eligible State utilized, or will utilize, to the fullest extent possible during such fiscal year its authority to obligate funds under such subsection (a) of this section [amending section 118(b) of this title]. No interest shall be paid under section 122 of title 23, United States Code, on that part of the proceeds of bonds issued after the date of enactment of this Act used to retire or otherwise refinance bonds issued prior to such date.”

### § 123. Relocation of utility facilities

(a) When a State shall pay for the cost of relocation of utility facilities necessitated by the construction of a project on any Federal-aid system, Federal funds may be used to reimburse the State for such cost in the same proportion as Federal funds are expended on the project. Federal funds shall not be used to reimburse the State under this section when the payment to the utility violates the law of the State or violates a legal contract between the utility and the State. Such reimbursement shall be made only after evidence satisfactory to the Secretary shall have been presented to him substantiating the fact that the State has paid such cost from its own funds with respect to Federal-aid highway projects for which Federal funds are obligated subsequent to April 16, 1958, for work, including relocation of utility facilities.

(b) The term “utility”, for the purposes of this section, shall include publicly, privately, and cooperatively owned utilities.

(c) The term “cost of relocation”, for the purposes of this section, shall include the entire amount paid by such utility properly attributable to such relocation after deducting therefrom any increase in the value of the new facility and any salvage value derived from the old facility.

(a) If the Secretary shall determine that it is necessary for the expeditious completion of projects on any of the Federal-aid systems, including the Interstate System, he may advance to any State out of any existing appropriations the Federal share of the cost of construction thereof to enable the State highway department to make prompt payments for acquisition of rights-of-way, and for the construction as it progresses. The sums so advanced shall be deposited in a special revolving trust fund, by the State official authorized under the laws of the State to receive Federal-aid highway funds, to be disbursed solely upon vouchers approved by the State highway department for rights-of-way which have been or are being acquired, and for construction which has been actually performed and approved by the Secretary pursuant to this chapter. Upon determination by the Secretary that any part of the funds advanced to any State under the provisions of this section are no longer required, the amount of the advance, which is determined to be in excess of current requirements of the State, shall be repaid upon his demand, and such repayments shall be returned to the credit of the appropriation from which the funds were advanced. Any sum advanced and not repaid on demand shall be deducted from sums due the State for the Federal pro rata share of the cost of construction of Federal-aid projects.

(b) Notwithstanding subsection (a) of this section, if the Secretary of Transportation determines that any toll bridge, toll tunnel, or approach thereto, which meets the requirements of section 129 of this title is necessary to complete an essential gap in the Interstate System then, upon request of the State highway department, the Secretary shall, at any time during construction of such bridge, tunnel, or approach and for one year after it is opened to traffic, and subject to the conditions and limitations of such section 129, advance to such State 100 per centum of the cost of construction of such bridge, tunnel, or approach. So much of the amount so advanced that exceeds the Federal share of such construction cost shall be repaid to the United States as follows:

(1) 50 per centum within one year of the date such bridge, tunnel, or approach is opened to traffic.

(2) 25 per centum within two years of such date of opening, and

(3) 25 per centum within three years of such date of opening.

Any advance made to a State under this subsection shall be from the funds apportioned to said State for the Interstate System. So much of any advance made to a State under this subsection required to be repaid shall be repaid
